

ARUSHI SINGH

Full Stack Developer | MERN Stack + Java Backend | 3 Deployed Projects | B.Tech CSE 2025
Lucknow, UP • +91 8755623609 • singharushi073@gmail.com • [GitHub](#) • [LinkedIn](#) • [PadhAI Live](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience designing, building, and deploying production-grade applications using the MERN Stack and Java. Delivered a live pharmacy automation system during a software development internship. Independently architected and launched **PadhAI**, an AI-powered EdTech platform integrating Groq LLaMA, JWT authentication, and an admin dashboard on Vercel. Proficient in REST API development, database design, and secure authentication. Adept at delivering clean, scalable code under real-world constraints.

WORK EXPERIENCE

Software Development Trainee — Analyze Infotech, Lucknow

Mar 2025 – Jun 2025

- Developed **MediClinic Mart**, a production-deployed pharmacy automation system for 100+ products using Java, JDBC, MySQL, Servlets, and Apache Tomcat
- Reduced billing errors by **40%** through automated transaction handling and role-based access control across 3 user roles (Admin, Pharmacist, Cashier)
- Delivered a fully functional, production-ready system within a 4-month deadline — actively used in a live business environment

PROJECTS

PadhAI — AI-Powered EdTech Platform ■ [Live Demo](#)

React · Node.js · Express · MongoDB Atlas · Groq LLaMA · JWT · Tailwind CSS · Vercel · Railway | 2025

- Engineered a full-stack learning platform for engineering students (CS/EC/ME/CE/EE); React frontend on Vercel, Node.js backend on Railway with MongoDB Atlas
- Implemented JWT-based authentication with **role-based access** (student/admin); admin dashboard with content CRUD, real-time stats, and 15+ REST API endpoints
- Integrated Groq LLaMA AI for an interactive tutor chatbot, article simplification, and automatic MCQ generation with server-side scoring to prevent cheating

MySphere — Full Stack Data Manager

React · Node.js · Express · MongoDB · JWT · bcrypt · Netlify | 2024

- MERN stack application with JWT-secured REST APIs, bcrypt password hashing, protected routes, and a responsive React frontend — deployed on Netlify

MediClinic Mart — Pharmacy Management System

Java · JDBC · MySQL · Servlets · Apache Tomcat · MVC Architecture | 2025

- MVC-based system managing 500+ products across Admin, Pharmacist, and Cashier roles with JDBC–MySQL billing automation deployed in a live business

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, Java Servlets, JSP, REST APIs, JWT, bcrypt

Databases: MySQL, MongoDB, MongoDB Atlas

Tools: Git, GitHub, Postman, Vercel, Railway, Netlify, Apache Tomcat

Concepts: OOP, Data Structures & Algorithms, DBMS, MVC Architecture, Agile, Prompt Engineering

EDUCATION

B.Tech — Computer Science & Engineering | Lucknow University

2021 – 2025

CGPA: 7.14 | Class XII & X — Gyanstali Academy, Lucknow (2019 & 2017)

ACHIEVEMENTS & CERTIFICATIONS

- Self-learned MERN Stack during B.Tech — independently built and deployed **3 production-grade full-stack projects** without formal coursework
- Community Lead & IT Head, **LUCSC University Club** — managed a 20+ member team and organised 5+ major technical and cultural events
- Java/J2SE Certification — Analyze InfoTech • Web Development Workshop — Microsoft Student Ambassadors (2024)
